

## Schmidlin shower bases made of glazed titanium steel

 Stable & resistant

 Hygienic & low-maintenance

 Warming & conductive

 Durable

# Schmidlin shower bases

The Schmidlin shower bases in a classic design are available in a wide variety of sizes and different depths: super flat (1 3/8 inch deep) or flat (2 5/8 inch deep). The shower bases are available with integrated tile flange on three sides and an apron at the front. Optionally the shower bases can also be ordered with tile flanges on two sides and with aprons on the other two sides. This solution spares complicated tiling work and stands out through its elegance and perfection.
